COVID-19 Update – July 31, 2020

In response to the COVID-19 pandemic, the Strand Theatre Preservation Society is taking continued action on the status of events. Guidance from the governor's office and local health department will lead the decision-making regarding holding events. It is the hope of the Strand that events will be able to be held soon.

GHOST LIGHT

A ghost light is a single bulb left burning whenever a theater is dark. Some argue that its function is to chase away mischievous spirits; others insist it lights the way for the ghosts that are said to inhabit virtually every theater, keeping them happy and contented. Either way, that light ensures that no one takes an accidental tumble off the stage. -PLAYBILL-

Despite the Strand having been dark for months, the ghost light in the front window represents the hope to return to the stage soon. The Strand appreciates the community support it has received over the years and looks forward to continuing to inspire, engage, and entertain the community through diverse programming as well as training and supporting the next generation of artists.
